9-10 The Foundry Business Park,  
Seager Road, Faversham,  
Kent, ME13 7FD

## System Overview

The AC400 series is a range of bespoke mesh rafts. There is not a standard size or format for the AC400, everything is designed and manufactured to meet the design intent of a project. We are able to manufacture, square, rectangle, triangle, hexagonal and oval rafts. The options truly are endless and the only limitation is your imagination

## Compatible Meshes

## Finishes Range

We offer any RAL colour or bespoke powder coat finish, as well as, bright plated finishes. Some of the most popular finishes are:

To find out more about the different colours & meshes in our range, please contact our team.
